Please Give This Brochure to Someone You Care About

We promise to treat them with the same excellent care and skill you’ve come to expect from us.
Thank you for your confidence in us.
We appreciate it – and you!

Ask About:

- **Dental Implants** – Permanent replacements for one or more missing teeth. We also offer mini implants to “lock in” dentures for a secure fit, even for many patients who aren’t a candidate for regular implants.

- **Invisalign** – The modern approach to straightening teeth with using custom made clear aligners.

- **BOTOX™** – Temporarily improves the look of moderate to severe frown lines between the eyebrows, in the forehead, around the eyes, lips, cheeks, and jawbone. BOTOX can also help to reduce grinding of your teeth as well as help to reduce or, in some cases, eliminate migraines.

- **Veneers** – Thin porcelain coverings that fit over and are bonded to your teeth, look natural, and are made from the most advanced dental ceramic available.

- **Sedation Dentistry** – Relax comfortably through your entire visit! Ideal for those apprehensive about going to the dentist.

From the moment you enter our office, you will feel at ease in our comfortable atmosphere and with our friendly, caring team who treat you as an important individual, not just as “the next patient.”

We want you to experience our commitment to providing you with the latest dentistry and personalized attention in a comfortable environment.

Complete Dental Care Under One Roof

Our patients are, of course, the most important element of our practice. That means we not only value your business, we value your time, and we take that well beyond avoiding a long wait before your appointment begins. Our doctors and team have all undergone extensive training to enable us to address any of your dental needs. We can provide a wide variety of dental services, from general dental care to cosmetic or dental implant procedures, right here in our office. This reduces your number of appointments and saves you time!

We Hope You’ll Join Our Dental Family of Friends

Our goal is to provide our patients with care that lasts a lifetime. We’re very happy that most often, our continuing patients need no additional treatment. And occasionally people move far away. This means that we are always very happy to have new patients become a part of our family. We look forward to seeing you.

A Smile as Healthy as it is Beautiful

We know that your oral health is not only about looking your best. It’s about maintaining healthy teeth and gums.

Did you know that the cause of most tooth loss is not decay? It’s gum disease. And recent studies have established a link between gum disease and heart disease.

The good news is that gum disease can be treated successfully, often without surgery.

We want all of our patients to have outstanding oral health. Our commitment to you includes paying meticulous attention to all of your needs so you look your best and have optimum oral health.

Call us today. We would love to have you as part of our dental family.
